Polycom® SoundStation VTX 1000™ Integration with VSX Video Conferencing Systems

The world's first integrated wideband conference phone and video solution.

Video conferencing is now as easy as making a phone call! With the integration of the revolutionary SoundStation VTX 1000, and VSX group video conferencing systems, users can replace their video system microphones with Polycom's award-winning SoundStation VTX 1000 conference phone.

This unmatched solution provides a familiar user interface to easily initiate video calls, allows users to speak naturally from up to 20 feet away from a microphone and still be heard clearly on the far end, and reduces cords and clutter to the conference table. Plus, the SoundStation VTX 1000 can still be used for voice-only conference calls. And, since the VSX series video conferencing systems and SoundStation VTX 1000 all support wideband audio, point-to-point video and voice calls automatically go into wideband mode providing crystal-clear voice quality. You'll think everybody is in the same room!

SoundStation VTX 1000 with VSX system Features and Benefits

Ease-of-Use	• Video conferencing is now as easy as making a phone call – with the user friendly SoundStation VTX 1000, making a video call is a snap
Wideband Audio	• It's the world's first integrated wideband conference phone and video conferencing solution! Wideband audio significantly enhances the conferencing experience – no need to repeat yourself – hear every word crystal-clear
Amazing Room Coverage	• With the SoundStation VTX 1000, speak naturally from up to 20 feet away from a microphone and still be heard clearly on the far end
Reduces clutter to the conference room table	• No need for separate video microphones and conference phone – it's now integrated into one, familiar solution
Seamless Integration of Polycom Voice and Video products*	• Allows users to disable system microphones from the UI to support external microphones for a VSX, SoundStation VTX 1000, and Vortex® solution
Integration with Polycom Global Management System™	• Both the VSX video conferencing products and SoundStation VTX 1000 integrate with Polycom's Global Management System software for easy deployment and management

Requirements for SoundStation VTX 1000 with VSX system integration

• Polycom VSX group system release 7.0 or later
• SoundStation VTX 1000 software version 1.4 or later
• ConferenceLink cable

This feature requires VSX release 7.5 or later and SoundStation VTX 1000 release 1.5 or later
