▶ Polycom® CX Product Family

Optimised for Microsoft® Office Communications Server 2007

A complete unified communications experience at a significantly lower total cost of ownership

The Polycom CX product family delivers the high quality, high definition wideband audio experience that users expect from Polycom. Whether you choose the hands-free CX100 Speakerphone, CX200 or CX300 Desktop Phone, CX700 IP Phone, the CX5000 Unified Conference Station, or all of the above, each provides full, convenient access to the advanced presence-enabled features of Microsoft® Office Communications Server 2007.

The Polycom CX product family is designed specifically for use with Office Communications Server 2007 and the benefits are numerous. Clear, high definition, wideband audio maximises the accuracy and productivity of real time conversations. Advanced audio processing for full-duplex speakerphones maximises audio quality. Plus, four different form factors with familiar telephone user interfaces both complement and offer convenient access to the advanced features of Office Communications Server 2007 and Microsoft® Office Communicator 2007.

In addition, Polycom CX5000 adds a unique group video experience to Office Communications Server 2007 and Microsoft Live Meeting 2007, giving remote participants a 360-degree panoramic view of the conference room and video that automatically tracks the flow of conversation for more productive and efficient meetings.

Polycom CX products are part of a complete unified communications experience that offers a significantly lower total cost of ownership. No matter how diverse your communications environment, there is a Polycom CX product designed to meet your business needs.

About Polycom
Polycom, Inc. (NASDAQ: PLCM) is the global leader in telepresence, video and voice solutions and a visionary in communications that empower people to connect and collaborate everywhere. To learn more about how you can travel less, communicate "face-to-face" wherever you are and lower your carbon footprint, visit www.polycom.com.

▶ Meets your unique business needs — Polycom offers a broad array of devices designed specifically for use with Office Communications Server 2007

▶ Easy to use — USB peripherals work seamlessly with Microsoft® Office Communicator 2007; no drivers or other software to install

▶ Superior audio — the higher quality of more traditional phone devices eliminates the need to rely on computer speakers or wear a headset

▶ True business class solutions — superior quality and durability
