

▶ Polycom® SoundStation2™ Direct Connect for Nortel

Feature and Benefits

Remarkable Voice Quality. Nortel® Meridian® Compatibility.

Feature	Benefit
Polycom Acoustic Clarity Technology	<ul style="list-style-type: none"> ▪ Allows natural, interactive two-way conversations. Users don't have to wait for speakers on the far end to stop talking before breaking into a conversation. ▪ Users can speak in a normal voice and be heard clearly up to ten feet away from the console. ▪ More productive calls -- no need to repeat yourself.
Dynamic Noise Reduction (DNR)	<ul style="list-style-type: none"> ▪ Automatically reduces room background noise – from fans, projectors, heating and air conditioning – for clearer sound and more efficient conferencing
Three cardioid microphones	<ul style="list-style-type: none"> ▪ Provides 360-degree coverage so that everybody in the room can be heard clearly.
Intelligent microphone mixing	<ul style="list-style-type: none"> ▪ Automatically selects the microphone closest to the person speaking, eliminating extraneous background noises
Microphone expandability	<ul style="list-style-type: none"> ▪ Optional extension microphones increase coverage for larger size rooms
Backlit graphical display	<ul style="list-style-type: none"> ▪ Convenient, easy access to important call information – phone number, number called, and duration/progress of call
Auxiliary Input/Output Jacks	<ul style="list-style-type: none"> ▪ 2.5mm Applications Port*: Provides connection to other communication devices, such as mobile phone and computers for hands-free conferencing. ▪ RCA jack: Allows connections to other peripherals, such as an audio recorder or wireless lapel microphone.
Single-cord connection to phone console	<ul style="list-style-type: none"> ▪ Eliminates cable clutter on the tabletop
Direct Connection to Nortel Meridian PBX port	<ul style="list-style-type: none"> ▪ Eliminates the need for a separate 3rd party PBX adapter or for running a special analog line into the conference room. ▪ Allows users to invoke basic PBX features including Conference, Transfer and Hold.

* SoundStation2 Direct Connect for Nortel uses a cable that connects to a standard 2.5mm headset connector. If your mobile phone model does not support this type of connection you will need an adapter (not included).

Connecting the SoundStation2 Direct Connect to a mobile phone is analogous to connecting a headset to a mobile phone. Not all mobile phone models recognize the SoundStation2 Direct Connect as a headset. For a list of mobile phones that are known to work with the SoundStation2 Direct Connect, please consult www.polycom.com.
